

The World's First TOPICAL BIOSTIMULATOR™ For Face & Body

PRX Derm Perfexion-

Non-Invasive Topical Biostimulator™
treatment clinically proven to help
tighten, tone, and lift the skin for
visible rejuvenation of the face
and body, delivering the ultimate
PRX GLOW™.

KEY BENEFITS

- / Helps improve the appearance of fine lines and wrinkles
- / Immediate brightening and lifting effect
- / Superficial scars
- / Rosacea
- / Acne-prone skin
- / Reduces pore size
- / Minimizes the look of stretch marks

PRX Derm Perfexion is the ONLY globally patented professional treatment formulated with 33% TCA, Hydrogen Peroxide and Kojic acid.

Hydrogen Peroxide (H2O2): In the dermis, Hydrogen Peroxide helps stimulate the skin stress response system (inflammation) and fibroblast activity.

33% Trichloroacetic Acid (TCA): TCA helps to deliver Hydrogen Peroxide to the dermal layer as it reacts with dead epidermal cells, helping stimulate the wound healing process.

Kojic Acid: Kojic Acid works to reduce skin pigmentation, resulting in the creation of even skin tones.

PRX Derm is a perfect addition to **PRX-PLUS**. Both treatments tighten, tone, and lift the skin, but they serve different patient needs — and your practice needs both to cater to a wider audience.

PRX Derm Perfexion focuses on rejuvenation/prejuvenation, ideal for young or sensitive skin and treating fine lines, while **PRX-PLUS** was designed for pigment and deep wrinkles. Be a leader not a follower, add **PRX Derm Perfexion** to your menu of services today!

Can be seamlessly integrated with other aesthetic treatments in your practice.

- _Microneedling
- _Non-ablative Fractional Laser
- _Radiofrequency (RF) Microneedling
